

Lefever Building Systems

Snowmass Recreation Center Snowmass Village, Colorado

Project Fact Sheet

Project Time Frame: December 2007 – March 2008

Project Turnkey Cost: \$302,000.00

Supply and Erection: Lefever Building Systems

Project Overview: Gymnasium addition to the existing town Recreation Center

Key Building Features: New gymnasium, including a mezzanine for aerobics, and yoga classes. The barrel roof helped to keep the height needed for the basketball courts inside. Roof panels were rolled on site by AEP. A very difficult erection job since it started during winter and was to be finished by spring.

Details on Steel Buildings:

Roof Panels: Barrel roof system using SLR roof panels

This Project won a Varco Pruden/VP Buildings Hall of Fame award for Best of Category in 2008
